

Organizing Committee

Honorary Chairs

Neil Fassina, Athabasca University, Canada
Stephen S. Yau, Arizona State University, USA

General Chairs

Oscar Lin, Athabasca University, Canada
Henry Leung, The University of Calgary, Canada

General Executive Chairs

Jun Zhao, Dalian University of Technology, China
Giancarlo Fortino, University of Calabria, Italy

Program Chairs

Antonio Liotta, Edinburgh Napier University, UK
Xiaokang Zhou, Shiga University, Japan
Zhipeng Cai, Georgia State University, USA

Program Co-Chairs

Katina Kravevska, Norwegian Univ. of Sci. & Tech., Norway
Pavol Zavarski, Concordia Univ. of Edmonton, Canada
Yan Huang, Kennesaw State University, USA
Claudio Savaglio, University of Calabria, Italy
Weimin Li, Shanghai University, China
Xiaokun Zhang, Athabasca University, Canada
Zhongyang Han, Dalian University of Technology, China
Wasim Ahmad, University of Glasgow, UK
Celimuge Wu, The Univ. of Electro-Comm., Japan
Lai Tu, Huazhong University of Sci.&Tech., China
Wenjia Li, New York Institute of Technology, USA

Workshop & Special Session Chairs

Ali Dewan, Athabasca University, Canada
Kenichi Kourai, Kyushu Institute of Technology, Japan

Special Issue Chairs

Gautam Srivastava, Brandon University, Canada
Ke Yan, National University of Singapore, Singapore

Tutorial Chair

Hao Zhu, Chongqing Univ. of Posts & Telecomm., China

Panel Chair

Frank Hsu, Fordham University, USA

International and Industrial Liaison & Publicity Chairs

Yuji Suga, Internet Initiative Japan, Japan
Kevin Cole, Athabasca University, Canada
Xiaohua Feng, University of Bedfordshire, UK
Chunyu Ai, University of South Carolina Upstate, USA
Reza Soltani, York University, Canada

Finance Chair

Hongxin Yan, Athabasca University, Canada

Registration Chair

Jillian Calliou, Athabasca University, Canada

Local Organizing Committee

Oscar Lin (Chair), Athabasca University, Canada
Ali Dewan (co-chair), Athabasca University, Canada
Joelle Jackson, Athabasca University, Canada
Karen Stauffer, Athabasca University, Canada
Chris Mason, Athabasca University, Canada

Steering Committee

Jianhua Ma (Chair), Hosei University, Japan
Hui-Huang Hsu, Tamkang University, Taiwan
Qun Jin, Waseda University, Japan
Jun Wang, University of Central Florida, USA
Laurence T. Yang, St. Francis Xavier University, Canada
Stephen S. Yau, Arizona State University, USA
Mazin Yousif, T-Systems International, USA
Albert Zomaya, The University of Sydney, Australia

Advisory Committee

Bernady O. Apduhan (Chair), Kyushu Sangyo Univ., Japan
Julien Bourgeois, UBFC/FEMTO-ST Institute/CNRS, France
Zhong Chen, Peking University, China
Raymond Choo, The Univ. of Texas at San Antonio, USA
Tadashi Dohi, Hiroshima University, Japan
Song Guo, Hong Kong Polytechnic University, Hong Kong
Keiichi Iwamura, The Tokyo University of Science, Japan
Seungcheon Kim, Hansung University, Korea
Jianwei Liu, Beihang University, China
Zhen Liu, Nagasaki Institute of Applied Science, Japan
Huansheng Ning, Univ. of Sci. and Tech. Beijing, China
Klimis Ntalianis, Univ. of West Attica, Greece
Yi Pan, Georgia State University, USA
Kouichi Sakurai, Kyushu University, Japan
Zhou Su, Xi'an Jiaotong University, China
Zhixin Sun, Nanjing University of Posts & Telecom., China
Nicolas Tsapatsoulis, Cyprus Univ. of Tech, Cyprus
Kevin I-Kai Wang, The University of Auckland, New Zealand
Feng Xia, Dalian University of Technology, China
Jianwei Yin, Zhejiang University, China
Qiang Zhang, Dalian University of Technology, China
Yanchun Zhang, Victoria University, Australia
Qiangfu Zhao, The University of Aizu, Japan
Qinggou Zhou, Lanzhou University, China

IMPORTANT DATES

Workshop/SS Proposal Due: Nov. 30, 2019
Regular Paper Submission Due: Feb. 15, 2020
Wksp/SS/Poster Paper Due: Mar 10, 2020
Authors Notification: Apr. 01, 2020
Camera-ready Submission: May 10, 2020

Transforming the Future by Disruptive Cyber Technologies

Cyberspace, the seamless integration of physical, social, and mental spaces, is an integral part of our society, ranging from learning and entertainment to business and cultural activities, and so on. There are, however, a number of pressing challenges such as safety and trust associated with the cyberspace. For example, how do we strike a balance between the need for strong cybersecurity and preserving the privacy of ordinary citizens?

To address these challenges, there is a need to establish new science and research portfolios that incorporate cyber-physical, cyber-social, cyber-intelligent, and cyber-life technologies in a cohesive and efficient manner. This is the aim of the IEEE Cyber Science and Technology Congress (CyberSciTech). IEEE CyberSciTech has been successfully held in Auckland, New Zealand, in 2016, in Orlando, USA, in 2017, in Athens, Greece, in 2018, and in Fukuoka, Japan, 2019.

In 2020, we will continue to offer IEEE CyberSciTech with the aim of providing a common platform for scientists, researchers, and engineers to share their latest ideas and advances in the broad scope of cyber-related science, technology, and application topics. In addition, this is also a platform to allow relevant stakeholders to get together, discuss and identify ongoing and emerging challenges, in order to understand and shape new cyber-enabled worlds.

IEEE CyberSciTech 2020 Tracks and Topics

Track 1: Cyberspace Theory & Technology <ul style="list-style-type: none"> ✧ Cyberspace Property, Structure & Models ✧ Cyber Pattern, Evolution, Ecology & Science ✧ SDN/SDS, 5G/6G, Vehicle & Novel Network ✧ Cloud, Fog, Edge & Green Computing ✧ Big Data Analytics, Technology & Service ✧ Infrastructures for Smart City/Country 	Track 2: Cyber Security, Privacy & Trust <ul style="list-style-type: none"> ✧ Cyber Security, Safety & Resilience ✧ Cyber Crime, Fraud, Abuse & Forensics ✧ Cyber Attack, Terrorism, Warfare & Defense ✧ Cyber Privacy, Trust & Insurance ✧ Blockchain, DLT Techniques & Applications ✧ Post-quantum Cryptography
Track 3: Cyber Physical Computing & Systems <ul style="list-style-type: none"> ✧ Cyber Physical Systems & Interfaces ✧ Cyber Physical Dynamics & Disaster Relief ✧ Cyber Manufacturing & Control ✧ Embedded Systems & Software ✧ Autonomous Robots & Vehicles ✧ Internet of Things (IoT) & Smart Systems 	Track 4: Cyber Social Computing & Networks <ul style="list-style-type: none"> ✧ Social Networking & Computing ✧ Computational Social Science ✧ Crowd Sourcing, Sensing & Computing ✧ Cyber Culture, Relation, Creation & Art ✧ Cyber Social Right, Policy, Laws & Ethics ✧ Cyber Learning, Economics & Politics
Track 5: Cyber Intelligence & Cognitive Science <ul style="list-style-type: none"> ✧ Cyber/Digital Brain & Artificial Intelligence ✧ Hybrid & Hyper-connected Intelligence ✧ Affective/Mind Cognition & Computing ✧ Brain/Mind Machine Interface ✧ Intelligent Multimedia Technology ✧ Intelligent Object, Environment & Service 	Track 6: Cyber Life & Wellbeing <ul style="list-style-type: none"> ✧ Cyber Life & Human Centric Computing ✧ Cyber Medicine, Healthcare & Psychology ✧ Cyborg/Wearable/Implantable Technology ✧ Human/Animal Behavior Recognition ✧ Personal Big Data & Personality Computing ✧ Virtual, Augmented & Mixed Reality

CyberSciTech 2020 Submissions and Publications

IEEE CyberSciTech 2020 calls for original papers, posters, as well as workshop and special session proposals, which focus on specific subjects related to cyber science and technology.

All accepted conference, workshop, special session, and poster papers will be published by IEEE in Conference Proceedings (IEEE-DL and EI indexed). Selected high quality papers will be recommended to prestige journal special issues.

Three Co-located IEEE International Conferences

- ◆ The 18th IEEE Int'l Conf. on Dependable, Autonomic & Secure Computing (**DASC 2020**)
- ◆ The 18th IEEE Int'l Conf. on Pervasive Intelligence and Computing (**PICom 2020**)
- ◆ The 6th IEEE Int'l Conf. on Cloud and Big Data Computing (**CBDDCom 2020**)
