

Special Session on Cyber System Security and Intelligence (CSSI 2020)

June 22-26, 2020, Calgary, Canada

In the era of big data, we are more dependent on the network, so the security of cyberspace has become a very important issue. Due to the increasing number and complexity of network attacks, the insufficient resources of security operation analysis organizations are in urgent need of the help of artificial intelligence. Using artificial intelligence technology, threat information can be sorted out from a large amount of data, providing immediate insight, helping people finding real threats, and greatly improving response speed. For discussing the development trend, academic trends, latest achievements, hot issues and application technologies and solutions of Cyberspace Security in all directions, so as to promote exchanges between Cyberspace Security academia and industry, experts, scholars, engineers and technicians engaged in Cyberspace Security and artificial intelligence academic research, application research and development and product evaluation are welcome to attend the special session.

TOPICS:

Special session suggested topics include, not exhaustively, empirical and theoretical studies of the following:

- Privacy issues
- Hardware-Based security
- Security of Web-based Applications and Services
- Operating Systems and Database Security
- Security in Cloud Computing
- Security in Social Networks
- Multimedia and Document Security
- Enterprise Systems Security
- Distributed and Pervasive Systems Security
- Surveillance Systems
- Authentication and Access Control Systems
- Biometrics Applications
- Biometrics standards and standardization
- Cyber-Crimes
- Cyber Insider Attacks
- Cyber Intelligence
- Intelligent Privacy-preserving and anonymization technologies
- Secure and private computational intelligence algorithm design
- Computational intelligence for cyberspace intrusion detection
- Computational intelligence for digital forensics
- Computational intelligence for risk management
- Computational intelligence for data-driven cyberspace security
- Computational intelligence for information privacy

General Chairs

Zhen Liu, NIAS, Japan
Qiang Zhang, DUT, China
Jinsong Wang, TJUT, China

Program Chairs

Xiaohui Wei, Jilin U, China
Jianwei Yin, Zhejiang U, China
Liangmin Wang, Jiangsu U, China

Publicity Chairs

Yuanning Liu, Jilin U, China
Tao Yu, NIAS, Japan

Technical Program Committee

Huaibin Wang, TJUT, China
Xiangshi Ren, KUT, Japan
Wenjun Yang, TJUT, China
Zhe Liu, Jiangsu U, China
Lei Shi, NT Co., LTD., Japan
Liucun Zhu, BBWU, China
Xiaohua Zhang, HIT, Japan
Bofeng Zhang, Shanghai U, China
Chaozhai, Zhang, NUAU, China
Hongbing Zhu, HKGU, Japan
Chundong Wang, TJUT, China
Xiaolong Zhang, WHUT, China
Lidong Yang, IMUST, China
Shanjun Zhang, Kanagawa U, Japan
Gangjun Li, Chengdu TU, China
Guofeng Li, SUFE, China
Guoyue Chen, Akita F. U, Japan

Steering Committee

Xiaopeng Wei, DUT, China
Yuqing Song, Jiangsu U, China
Yi Zhang, Sichuan U, China
Haixing Zhao, QHNU, China
Zhen Liu, NIAS, Japan

Important Dates

Submission Due: Apr. 2, 2020

Authors Notification: Apr. 20, 2020

Camera-ready: May 31, 2020

Publication

All accepted papers will be published by IEEE in Conference Proceedings (IEEE-DL and EI indexed).

Technical Supporters
